

NATURAL RESOURCE PLANNING SURVEY

To assist in revising the Wood County Land and Water Resource Management Plan, the Land Conservation Committee of Wood County would like your input.

What do you think are the most important natural resource issues that should be addressed in Wood County?

Indicate your five most important issues by putting a “1” next to your **most important issue**, a “2” next to your **second most important issue**, and so on, through your **third, fourth and fifth most important issues**:

The five most important issues are...

- | | |
|--|---|
| <input type="checkbox"/> Destruction of wetlands. | <input type="checkbox"/> Fragmentation and loss of wildlife habitat. |
| <input type="checkbox"/> Groundwater pollution. | <input type="checkbox"/> Mismanagement of livestock manure. |
| <input type="checkbox"/> Soil erosion from construction sites. | <input type="checkbox"/> Lack of natural resource education programs. |
| <input type="checkbox"/> Loss of prime agricultural lands. | <input type="checkbox"/> Excessive erosion from cropland. |
| <input type="checkbox"/> Urban/suburban runoff pollution. | <input type="checkbox"/> Overgrazing/cropping along streams & rivers. |
| <input type="checkbox"/> Pesticide use (herbicides, insecticides, etc.) | <input type="checkbox"/> Loss of farms due to economics. |
| <input type="checkbox"/> Lost access to mineral resources. | <input type="checkbox"/> Protection of air quality. |
| <input type="checkbox"/> Growth of urban areas. | <input type="checkbox"/> Housing development in rural areas. |
| <input type="checkbox"/> Solid waste disposal. | <input type="checkbox"/> Lack of recycling programs. |
| <input type="checkbox"/> Surface water pollution (streams, lakes, rivers). | <input type="checkbox"/> Siting of large-scale livestock facilities. |
| <input type="checkbox"/> Spreading of septic and sewage wastes. | <input type="checkbox"/> Overuse/shortage of parks and natural areas. |
| <input type="checkbox"/> Urban storm water management. | <input type="checkbox"/> Preservation of scenic beauty. |
| <input type="checkbox"/> Improperly abandoned (unused) wells. | <input type="checkbox"/> How to balance development & conservation. |
| <input type="checkbox"/> Management of forests and woodlots. | <input type="checkbox"/> Access to hunting lands. |
| <input type="checkbox"/> Loss of fishery resources. | <input type="checkbox"/> Excessive wildlife. |
| <input type="checkbox"/> Overgrazing of pastures. | |
| <input type="checkbox"/> Failing septic systems. | |
| <input type="checkbox"/> Nonmetallic Mining Reclamation | |
