Investigation of Dara Hamm

Peter Kastenholz

Reply all |

Hi Scott,

Someone, I presume from the DA's office, dropped off a copy of the DOJ's investigative report on Dara Hamm this morning. I went ahead and read it over such that I would be prepared if you stopped by or called to talk about it. Now that I have read it, I want to give a summary of my take on the report and what if any cause of action that the county should take and reasonably expect to win based upon the data in the report.

There are several different allegations of financial abuse by Hamm and my plan is to address each one and then I will follow up with a discussion on the applicable statutes of limitations and how I think we should be proceeding here.

1. Hamm charged an \$85 per diem for the first seven months of being in office and was only eligible for \$50 per diems.

There doesn't seem to be any dispute that Hamm charged an \$85 per diem on 110 occasions when she should have only billed at the \$50 rate. This resulted in an overpayment of \$3,850 for which the county has not been reimbursed.

The evidence here is compelling and solid. If Hamm doesn't pay back the \$3,850 the county has a clear case against her.

2. Hamm charged \$100 for report writing at the end of each month.

There is no question that Hamm charged the \$100 each month. Hamm maintains that her predecessor (Kronstedt) advised her to bill the county for the report writing. Kronstedt did in fact bill the county \$100 each month, at least at the end of his tenure, for report writing. There is no ordinance, resolution or policy authorizing this billing. The oversight committee took no action to stop the practice or apparently even to question it.

It is rather clear to someone like myself that the \$100 per month report writing was not authorized and that the monthly salary would cover this type of function. However, there being no policy on it and the fact that Hamm's predecessor charged in the same fashion and the committee to my knowledge never asked about or acted to stop the practice, makes it unlikely the county could show that Hamm was wrong in so billing and therefore had to reimburse the county for the payments made.

3. Hamm inappropriately commenced the practice of charging per diems for meetings and conferences when she stopped over-billing her per diems.

The record is clear that Hamm did as alleged. It doesn't appear that Kronstedt charged per diems for meetings and conferences. I am not aware that the oversight committee affirmatively approved the new practice or that it was formally brought to its attention. Likewise, there is no evidence the oversight committee questioned the vouchers containing the billing or asked Hamm to change her practice.

An action by the county to recover these costs is stronger than it would be for the \$100 end of month reports because there was no past practice of charging per diems for meetings and conferences. It is by no means a solid case, though, with the committee never questioning the practice and therefore acquiescing to it. The county would be in the awkward position of contending that the committee was negligent in performing its job and therefore should be entitled to recover the payments. It is possible that Hamm would find a member of the committee that oversaw her during her four year term that would say they were aware of the charge and deemed it an appropriate application of the per diem policy. For these reasons I would be leery about suing for the recovery of these payments.

4. Hamm charged per diems and mileage for actions that were not taken.

The DOJ DCI investigator did not delve into trying to prove or disprove this allegation and there weren't precise details included in your written complaint or apparently in your interview with the investigator to follow up on. Possibly for similar reasons as the investigator, that being it is very unlikely to be a profitable endeavor to try and prove up these claims and to get funeral home directors and staff to verify actions and inaction of Ms. Hamm, that I am not interested in pursuing verification of this allegation.

From a legal perspective these alleged instances of overbilling would be very difficult to prove.

Another component of assessing what actions can be taken to recover money that was overpaid by a governmental entity to a former elected official has to do with the statute of limitations applicable to the over-billing events. When an employee or elected official brings an action against the county for payment for services rendered, the 2 year statute of limitation under Wis. Stat. s. 893.44 applies. That statute only limits the time within a recipient of compensation may sue, not when the "employer" may sue for overpayments made. Arguably, the 6 year look back period set forth in Wis. Stat. s. 893.61 for contracts for payment of money with a governmental entity applies. It is also plausible for a court to find that the 2 year limitation period under s. 893.93(1m)(b) for fraudulent acts applies. There is no case law on point so it isn't crystal clear. Obviously, though, the statute of limitations that does apply will impact the county's ability to recoup overpayments.

My suggestion is that you address this topic with your oversight committee. If they want it to be considered in closed session then I should be there for that and assist in writing the specific notice for the agenda.

The preferred approach in my opinion would be for the committee to authorize/direct me to recover the \$3,850 in the 110 per diems that were paid at \$85 each instead of the correct \$50 each. I would attempt to make the recovery by a voluntary payment plan and if that failed I would then utilize small claims court to obtain reimbursement.

I would like to be notified if and when the Public Safety Committee plans to meet to discuss the topic.

Thank you for your attention and please advise if you have any questions or concerns.

INTENT & SYNOPSIS: To establish an ordinance prohibiting the first time possession of small amounts of Marijuana and then consolidating that with the drug paraphernalia and synthetic cannabinoids ordinances already in existence.

FISCAL NOTE: There will be an unknown increase in revenues to the county by means of using an ordinance versus a state statute to enforce the law.

WHEREAS, Wood County already has ordinances in place for use in lieu of state statutes when appropriate to enforce possession of drug paraphernalia and first time synthetic cannabinoid possession, and

WHEREAS, most surrounding counties and cities within Wood County have an ordinance prohibiting the first time possession of small amounts of Marijuana, which simplifies the administration of the law, allows for a greater part of the penalty to go to Wood County, and allows more latitude to the charging and prosecuting authorities to make the penalty fit the crime, and

WHEREAS, it makes sense to realign the existing ordinances dealing with the first time possession of synthetic cannabinoids and possession of drug paraphernalia into one drug related ordinance that covers the first time possession of a small amount of Marijuana as well.

NOW, THEREFORE, THE WOOD COUNTY BOARD OF SUPERVISORS HEREBY ORDAINS to

1. Rescind existing Ordinance 236 dealing with drug paraphernalia and Ordinance 281 regulating the possession of synthetic cannabinoids, and
2. Create new Ordinance 236 governing the possession of small amounts of Marijuana and synthetic cannabinoids as well as drug paraphernalia as specifically set forth on the attachment hereto, and
3. Making the above changes effective upon passage and publication of this ordinance as provided for by law.
4. Directing the County Clerk to publish this Ordinance within ten days.

Security Services November 2019 Report

For the month of November 2019, Security Services again stopped numerous prohibited items from coming into the Courthouse. The totals for the month of November are:

Guns -	0
Knives -	205
O.C. -	2
Misc. Items -	5

A couple of the miscellaneous items were, a fully loaded handgun magazine and a set of brass knuckles.

During the month, Security Services had 37 security requests from different departments within the Courthouse. These requests range from security in the court rooms to deliveries at the maintenance garage door.

On the morning of November 12th a jury trial was scheduled for the day. At the same time we also had a County Board Meeting. With the two events happening at the same time, Security Services scanned over 100 people within a 20 minute time frame. I believe that we handled the situation well and I did not hear any negative feedback from the employees and/or public that were getting screened during this time.

On November 13th we had a woman fall in front of the Courthouse. Security Services were there immediately to call for an ambulance and get the woman help. We also completed a written report of the incident for The Safety and Risk Management Department.

For the month of November we screened 7,763 people entering the courthouse.

Security Services is still having a few issues with equipment and staffing levels but we are working hard to solve these problems so we do not hinder the public and/or staff here at the Wood County Courthouse.

Attached to this report is a break down, by week, of items Security Services have located for the month of November.

Subject: Jail Chiller Replacement

Gentlemen,

As you know, we experienced a significant failure on the Jail chiller this year. The chiller had been included on our list of capital projects for replacement in the near future, however, the failure happened unexpectedly, so I deferred a different capital project scheduled for this year in order to replace the chiller prior to our next cooling season.

I received word today that our contractor has taken delivery of the new chiller for the Jail. I will keep you posted as we begin coordinating work for this project in the next couple weeks.

Let me know if you have any questions.

Thank you!
