I have answered the above questions to the best of my knowledge and request that I be immunized. I have been given a copy of the Vaccine Information Fact Sheet and have read, or have had explained to me, information about the diseases and the vaccine to be received. I have had a chance to ask questions that were answered to my satisfaction. I understand the benefits and risks of receiving a vaccine approved under an Emergency Use Authorization from the FDA. I understand that if I have a dermal filler, I may experience temporary swelling at or near the site of the filler injection (usually face/lips) and will contact my health care provider if swelling develops. If I am requesting the Janssen vaccine, I am aware that mRNA vaccines are preferred over the Janssen vaccine, and that there is a risk of TTS following receipt of the Janssen vaccine. I have reviewed the risk and symptoms of thrombocytopenia syndrome (TTS) in the EUA fact sheet provided to me and am aware of the need to seek immediate medical care should these symptoms develop. If I am receiving an "additional" dose, I attest that I am doing so due to having a weakened immune system. If I am age 12-49 and am requesting a 2nd booster, I attest that I am doing so due to having a weakened immune system. I consent to receive the vaccine in a public location. I have been made aware of the appropriate time I am expected to be monitored for post-vaccination reactions based on my risk factors. **I understand the benefits and risks of the vaccine requested and ask that the vaccine be given to me, or in the case that I am a guardian, my child.**
