How to Determine Retail Food Establishment – Not Serving Meals: License Complexity Category

A retail food establishment - not serving meals is a retail food establishment at which meal sales are not the predominant activity. This calculator is utilized to help determine a retail food establishment's complexity category, which determines your license type and license fees. **The complexity category is needed to complete your license application.**

Complete the checklists below to determine your complexity category.

Checklist 1: Annual Sales Volume Information- *Check One*

(Deli operations process potentially hazardous food. Include deli/restaurant sales in annual food sales calculation.)

- Establishment has annual gross food sale receipts less than \$25,000. (.25 point)
- Establishment has annual gross food sale receipts more than \$25,000 but not more than \$1,000,000. (.5 point)
- Establishment has annual gross food sale receipts more than \$1,000,000 but not more than \$5,000,000. (1 point)
- Establishment has annual gross food sale receipts more than \$5,000,000. (2 points)

Checklist 2: Risk Complexity Calculation- *Check All That Apply*

- Establishment has a self-service salad bar or food bar*. Does not include condiments, bakery or toppings. (1 point)
- Establishment processes fresh or frozen raw poultry, meat, seafood, or eggs. (1 point)
- Establishment operates using a variance or HACCP plan. (1 point)
- Establishment operates using a Bare Hand Contact or Time as a Public Health Control Plan. (1 point)
- Establishment offers catering or preordered meals in bulk quantity for events. (1 point)
- Establishment cold holds, hot holds, or reheats time/temperature control for safety (TCS) foods. (1 point)
- Establishment does cooling of cooked or reheated time/temperature control for safety (TCS) foods. (1 point)
- Establishment wholesales foods that requires refrigeration. (1 point)
- Establishment chops, dices, mixes, slices, blanches, boils, cooks, packages, or assembles product. (1 point)
- Establishment has an additional area(s), other than the main kitchen, where food preparation activities occur. (1 point)
- Establishment prepares food specifically for a highly susceptible population, such as a nursing home or day care. (1 point)
- Establishment has a customer seating capacity greater than 75, or has a drive-thru window. (1 point)

*If only condiments or other non-meal, ready-to-eat, non TCS foods are offered or displayed for customer self-service, that display does not qualify as a salad or food bar, such as, but not limited to pickles, onions, non-TCS dessert toppings, relishes, garnishes, and bakery items.

****NOTE:** A facility that has been ordered closed, or been linked statistically to a food borne illness, is immediately placed in the COMPLEX category for the current and following license year.

Calculation Instructions – Add All Points for Table 1 and Table 2 to Determine Retail Food Establishment Complexity

Table 1 Total _____ + Table 2 Total _____ = _____

Use total to select your complexity on the table on the first page. This will be used for your application.
