### **HIGHWAY, INFRASTRUCTURE & RECREATION COMMITTEE**

**DATE:** Thursday, April 4, 2024  
**TIME:** 9:00 a.m.

3. The minutes of the March 7, 2024 meeting were reviewed. Motion by LaFontaine/Breu to accept them as presented. Passes unanimously.
4. Under Correspondence Hawk discussed a piece of old road-right-of way on CTH G that was to be transferred to the adjacent land owner. Hawk proceeded with the transfer but because taxes were owed, the road right-of-way could not be transferred. Hawk has since received correspondence from the land owner that the taxes have been paid, Hawk will proceed with the transfer of this road right-of-way to the adjacent land owner.
5. No ATV updates.
6. Highway Department staff reports were highlighted and reviewed.
7. The Highway Department revenue report was reviewed.
8. Motion by LaFontaine/Thao to approve the Highway Department vouchers. Motion carried unanimously.
9. Hawk presented the 2025-2029 Highway Department Capital Improvement Plan. Hawk believes the plan 2025-2028 is set and does not anticipate any changes. Hawk has included the Highway Department fuel system in the 2025 CIP as the current system is aging and outdated. The new system would resemble the system in at the Wisconsin Rapids shop with above ground fuel tanks and a canopy. The system would also be moved closer to Galvin. Hawk also wanted to inform the committee that he will be asking for an increase in the winter maintenance budget for 2025. This budget item has been going over budget for the 5 years. The equipment capital improvement plan covers the planned purchases 2025-2029. Equipment purchases come out of the machinery fund that is generated by the use of the equipment we have. Hawk states that he is not anticipating in increases coming from the State for highway

improvements. Motion by LaFontaine/Breu to approve the Highway Department 2025-2029 CIP. Passes unanimously.

10. Hawk is requesting to early fill for the Stock Room Attendant so that someone can become familiar with the position. This position is unique and getting someone familiar with the shop operations before she is gone. The anticipated date the position will become vacant is in September. Motion by Lafontaine/Breu to allow for the early fill of the Stock Room Attendant to be done as soon as possible. Passes unanimously.
11. In the past Hawk has bid out asphalt treatments. Hawk would like to experiment with some treatments on pavements that are one or five years old. Hawk would like to do this without bidding in order to investigate the best products to be using on pavements to preserve them. LaFontaine/Hahn made a motion to allow Hawk to experiment with various pavement treatments without bidding these treatments. Passes unanimously.
12. Parks and Forestry Staff reports were reviewed.
13. Motion by Lafontaine/Breu to approve special use permits presented in the meeting with a waiver of the fees for the Arpin Fire Department if they will commit to providing first responders for Powers Bluff. First Permit is for a disc golf tournament one Saturday per month May-September the P & F Department received \$50/tournament and \$3 per player that plays in the tournament. ## **Accounting Supervisor Report**

By John Peckham, Wood County Highway Department Accounting Supervisor

HIRC Meeting

### *Revenues and Expenses*

Revenues and expenses are as anticipated at this point of the year.

### *Other*

I have concluded the preparation of the audit workpapers for Finance and the auditors. There were no surprises during the preparation. I am prepared for the auditors on-site questions beginning in May.

I have finished a series of annual surveys for the State. I will begin work on the Annual Financial Report in May.

This month continues the educational series, Bookkeepers Corner, that I began a couple months ago. The chapter this month is on the Transportation Cost Pool – Field Small Tools.

**TRANSPORTATION COST POOLS – FIELD SMALL TOOLS**

The purpose of this cost pool is for highway departments “to distribute uniformly, to all pertinent projects, costs associated with field small tools, that cannot be directly attributed to programs and/or projects”. “Field Small Tools are defined as any item purchased or built for use on multiple field projects and which costs less than \$5,000, except for chain saws, concrete saws, and line trimmers which are classified units of equipment. Field small tools shall include hand shovels, picks, skill saws, power drills, lanterns, barricades with battery operated flashers...and other similar equipment”.

The Field Small Tools cost pool is represented in Function 53220.

Cost pools such as the Field Small Tools pool use a percentage of direct labor. In percentage of direct labor cost recovery, expenses and cost recoveries of the cost pool are totaled at year-end. A formula is applied and the resulting percentage is established and approved by the State. That percentage will then be applied to each hour of direct labor worked.

Debits to the pool – Purchases of field small tools such as brooms, shovels, and rumble strips.

Credits to the pool – A percentage is applied to direct labor charges for each project that an employee is working on and the recovery of costs via that percentage are revenue to the pool.

As a reminder, the cost pools encompass both expenses and revenues. Unlike most accounting systems, the revenues within the cost pools are accounted for under expense functions (50000 series of numbers in the third segment of the County’s account numbers). The revenue accounts within those expense functions are referred to as Cost Allocation accounts.

The result of this practice, when the Transportation Cost Pool is “over-recovering” its costs, and when a particular function’s expenses and cost allocations are combined, is a credit balance (number will show in parentheses on Revenue Report). When the Transportation Cost Pool is “under-recovering” its costs, the combined accounts will show a debit balance (the number will not be in parentheses on the Revenue Report).
