

Central Sands Groundwater County Collaborative (CSGCC) Meeting

April 25th, 2022 10:00 am

Join Zoom Meeting

<https://uwmadison.zoom.us/j/97245039810?pwd=UGRIL1BHOGNDM0tXTHBrZWpaRHJCdz09>

Meeting ID: 972 4503 9810

Passcode: 9241

Dial: 312 626 6799

1. Call to Order
2. Review and approval of prior meeting minutes
3. Legislative updates
4. County groundwater updates - Conservation and Public Health (order JAWaWoPM)
5. Current research project communication and data collection updates
6. USGS grant opportunity (Dr. Romano)
7. WGNHS Project Map
8. Discuss task of creating bylaws
9. Upcoming meeting(s)
10. Adjourn

Stated Goals of this Collaborative (for reference):

1. Understand current groundwater conditions by developing a sampling strategy to collect baseline water quality information across the Counties in the Central Sands Region. This information will be used to identify areas with elevated nitrate levels. In areas considered "hot spots", further analysis will be conducted to evaluate likely sources of nitrate contamination.
2. Gain a uniform understanding of methods to prevent nitrogen contamination in groundwater based on information from previous studies conducted in the central sands and similar settings.
3. Understand where areas most vulnerable to groundwater contamination exist to guide the development and use of ordinances, practices, and other preventative responses for land use.
4. Develop a unified regional outreach strategy to provide partisan-free education about groundwater conservation and water quality safety to the general public.
5. Create a model structure for regional collaboration on groundwater management that can be applied statewide.
